

March 2017

Dear Stallholder,

The 2017 Ludlow Green Festival will take place on Sunday 9th July. The aim of the Green Festival is to demonstrate in a fun and engaging way practical green alternatives, ideas and lifestyles. This year we will be working with many local young people to help further generate interest in sustainable activities. There will be lots taking place in and around Castle Square and the market stalls are central to the day's activity.

In line with our Green ethos, we like to demonstrate that our stallholders operate within the spirit of the Festival. To this end, we ask that if you would like to participate this year, please complete the attached Green Statement as well as the Booking Form and return by email to tish.dockerty@tdky.co.uk or the address on the booking form (please do **not** use the stalls@greenfestival.co.uk email).

There is no need to send us any money yet! We will acknowledge and accept stallholders via email and we will request full payment for your stall as the last part of the booking process. Once payment has been received your stall is fully booked.

The stalls include cover and table (but not side sheets) and measure 8 ft x 4 ft. There are also several open pitches available which may be more suitable for certain types of display or vehicles that cater. Please indicate your preference on the form attached. You may indicate if you would like more than one stall/pitch, but stallholders will be limited to one if demand is high.

We reserve the right to restrict the type of stall that trades at the Green Festival and the number of stalls offering the same type of goods or information, and will give priority to those committed to a green ethos.

If you have any further questions please do not hesitate to email me tish.dockerty@tdky.co.uk

Yours sincerely

Tish Dockerty, Stalls Organiser
